Consent Items:					
4. Approve Board Meeting Minutes – Brent Hastey moved to approve the Board Meeting Minutes. Jared Hastey seconded the motion. Motion Carried. Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.					
5. Approve Checks and Warrants – Brent Hastey moved to approve the Checks and Warrants. Jared Hastey seconded the motion. Motion Carried. Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.					
6. Ratify the General Manager’s Signature Approval for a CEQA Notice of Exemption for the Pump Station 10 River Outfall Connection Project – To facilitate project implementation and address plan review comments from the Central Valley Flood Protection Board (CVFPB), a Notice of Exemption (NOE) under the California Environmental Quality Act (CEQA) was required. To avoid project delays, the General Manager executed and filed the NOE with Yuba County and the California Governor’s Office of Planning and Research prior to Board ratification. Brent Hastey moved to ratify and approve the General Manager’s signature on a CEQA Notice of Exemption for the Pump Station 10 River Outfall Connection Project. Jared Hastey					

seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

7. *Board to Consider Adopting Resolution No. 2026-06-01 Supporting the Association of California Water Agencies' (ACWA) Vision for Our Water Future Initiative, Which Identifies Statewide Priorities for Water Reliability, Affordability, Infrastructure, and Long-Term Resilience –*

The resolution would formally express Reclamation District 784's support for ACWA's recommendations and reaffirm the District's commitment to collaborative, science-based water management policies that support reliable and resilient water supplies throughout California.

Brent Hastey moved to adopt Resolution 2026-06-01 which supports the Association of California Water Agencies' (ACWA) Vision for Our Water Future Initiative which identifies Statewide Priorities for Water Reliability, Affordability, Infrastructure, and Long -Term Resilience. Jared Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

8. *Board to Consider Adopting the Cal OES Form 130 – Designation of Applicant's Agent Resolution –*

A Designation of Applicant's Agent Resolution for Non-State Agencies is required for all applicants to be eligible to receive funding. This universal resolution remains effective for all open and future disasters/grants declared for up to three years following the date of approval. The current resolution was adopted by the Board in November 2023 and is now due for renewal.

Brent Hastey moved to approve the renewal of the Cal OES Form 130. Jared Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

9. *Board to Consider Adopting Resolution 2026-06-04 for Accepting a 35' Public Service Easement Over APN 014-840-001 From BH-NV Yuba County Investments, and Authorize the GM to sign the Final Map –*

Condition No. 24 of the County of Yuba Final Conditions of Approval requires the applicant, BH-NV Yuba County Investments, to submit a copy of the Final Map to the District for review and determination of conformance. Parcel Map 2024-0004 proposes to subdivide approximately 74.68 acres into two parcels: Parcel 1, consisting of approximately 30.83 acres, and Parcel 2, consisting of approximately 43.85 acres. The property is located at the corner of Ella Avenue and Feather River Boulevard and is currently designated as Vacant Agriculture. Land underlying the drainage facilities will be dedicated to Reclamation District 784 on the Final Map.

Drainage Lateral 13 runs along the entire eastern boundary of the property, with the property line generally located along the centerline of the lateral. To ensure adequate District operations and maintenance access, the District requires a 35-foot-wide Public Service Easement measured from the centerline of the lateral, including approximately 20 feet extending west from the top of the embankment to accommodate District vehicle access and maintenance activities.

Recommended Action:

Adopt Resolution No. 2026-06-04 accepting a 35-foot Public Service Easement from BH-NV Yuba County Investments and authorizing the General Manager to execute the Final Map.

Brent Hastey moved to adopt Resolution 2026-06-04. Jared Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

Items for Discussion and Possible Actions:

10. Board to Consider Authorizing an Amendment to the 2013 Drainage Impact MOU/Deferral Agreement for the Plumas Lake Middle School –

Background:

In October 2025, the District became aware that construction activities had commenced on the new Plumas Lake Middle School project in Plumas Lake. Under District policy, all drainage impact fees for an entire parcel are typically collected at the time of grading permit issuance or prior to recordation of a final map, whichever occurs first. This process is generally coordinated through the county permit clearance routing process. However, because the project is proceeding through the Division of the State Architect (DSA), the District was not aware that construction had commenced.

The project includes development of a new middle school on Lot 1 of Parcel Map 2012-0002. The total drainage impact fees due at the 2025/2026 rate are \$558,714.16, which includes the 25.04-acre Lot 1 parcel and approximately one acre associated with the Kensington Way extension crossing Lot 2, owned by OPUD.

In May 2013, a Memorandum of Understanding (MOU) regarding the deferral of drainage impact fees was executed between the County of Yuba and the District to facilitate recordation of Parcel Map 2012-0002. The agreement applied to approximately 75.05 developable acres designated for two future school sites, including Lot 1 (25.04 acres) and Lot 3 (50.01 acres). The remaining parcels consist of Lot 2 (25.70 acres), intended for a future community park, and Lot 4 (17.40 acres), designated as open space/linear parkway. Since execution of the original agreement, ownership of Lot 1 has been transferred to the

Plumas Lake Elementary School District, identified in the agreement as the “Future Owner.” The agreement further provides that drainage impact fees are payable on an individual parcel basis at the fee rate in effect at the time payment becomes due.

The Plumas Lake Elementary School District is requesting an amendment to the original MOU to allow for the phased payment of drainage impact fees. Specifically, PLESD is requesting to pay the fees associated with approximately 8.53 developable acres needed for the initial phase of the project at this time, with the remaining fees for the approximately 17.68 developable acres to be paid when funding becomes available for future phases of development, which may not occur for several years.

Staff is requesting authorization to negotiate and execute an amended Drainage Impact Fee MOU/Deferral Agreement to allow phased payment of drainage impact fees consistent with the PLESD’s request.

Brent Hastey moved to authorize the negotiation and execute an amended Drainage Impact Fee MOU/Deferral Agreement allowing phased payment of drainage impact fees consistent with the PLESD’s request. Jared Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

11. Board to Consider Authorizing the General Manager to Award a Contract for the Pump Station 10 River Outfall Connection Project –

Background:

In December 2023, the District was awarded a cost-share grant from YWA for the Pump Station 10 River Outfall Connection Project. Although a substantial portion of Pump Station 10 was constructed in 2014, several critical components were deferred at that time due to budget constraints. Deferred improvements included the main discharge pipeline to the Feather River, permanent outfall structure, installation of a third pump and associated motor controls, and a backup diesel generator.

As an interim solution, a temporary outfall pipeline was installed east of the pump station to convey stormwater from Ella Basin into Lateral 15 North, which ultimately discharges through Pump Station 6. The proposed project will complete the original facility design by constructing a permanent outfall pipeline west of the pump station beneath Murphy Road, as well as installing the third stormwater pump and backup diesel generator.

The original Engineer’s Estimate for the project was \$6,141,000. Under the executed grant agreement, YWA will fund up to \$4,605,750 (75%) of eligible project costs, with the remaining \$1,535,250 (25%) funded through District-collected Basin C impact fees.

The project was originally scheduled to bid on June 1, 2026; however, the bid opening has been rescheduled to June 24, 2026, to allow the District’s engineer additional time to

complete value engineering efforts and revise the plans and specifications to reduce project costs.

Staff provided an update to the Board regarding recent discussions with YWA staff, which resulted in a recommendation to terminate the bid process, not award a contract, and postpone the project indefinitely. The recommendation was made to allow YWA to maximize its financial resources and prioritize the penstock recovery process. Joe Danna moved to cancel a contract award. Brent Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

12. Board to Consider the Annual Drainage Impact Fee Inflator for FY 2026-2027

—

Economic & Planning Systems (EPS) has calculated the annual inflator for the District's drainage impact fee program. Consistent with the methodology established in the 2013 RD 784 Nexus Study Addendum and the 2015 Basin C-2 Nexus Study, EPS adjusted the improvement cost estimates using the average change in the San Francisco Construction Cost Index (CCI) and the 20-City CCI, as published by Engineering News-Record.

The average increase from May 2025 to May 2026 was 1.37%. If approved by the Board, the technical memorandum will be forwarded to the Yuba County Board of Supervisors for formal adoption.

Staff acknowledges that the Board authorized commencement of an updated drainage impact fee Nexus Study at the May 7, 2026 Special Board meeting. Until the updated study is completed, staff recommends continuing application of the annual inflator adjustments. (See Handout)

Recommended Action:

Approve the 1.37% drainage impact fee inflator for FY 2026/2027.

Brent Hastey moved to approve the 1.37% drainage impact fee inflator for FY 2026-2027. Jared Hastey seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

13. Board to Receive the FY 2026-2027 RD784 Assessment Escalation Evaluation and Consider Adoption of Resolutions 2026-06-02 and 2026-06-03 Establishing a New Assessment Rate and Authorizing Collection on the County Tax Roll –

Annual Escalation – (Ref: July 10, 2019 LWA Final Engineer's Report for RD784)
During the Proposition 218 process, the assessment engineer determined that an appropriate annual escalation factor should reflect changes in construction labor and material costs associated with the services provided. Accordingly, the maximum authorized assessment rate for FY 2026–27 is subject to an annual inflationary adjustment pursuant to Government Code Section 53739(b), based on the annual change in the San Francisco Construction Cost Index (CCI) and the ENR 20-City CCI (Base Year 1913 =

100), as published by Engineering News-Record (ENR), subject to a minimum adjustment of 0 percent and a maximum adjustment of 4 percent in any given year.

The RD784 Board may levy an assessment rate up to the maximum authorized rate each year based on the annual budget analysis. Based on the ratio of the ENR 20-City CCI for May 2026 compared to May 2025, LWA has calculated that RD784 may apply an assessment escalation rate between 0 percent and 1.37 percent for FY 2026–2027.

Recommended Action:

Approve the 1.37 percent assessment escalator for FY 2026–2027 .

Jared Hastey moved to approve the 1.37 percent assessment escalator for FY 2026-2027 and for adoption of Resolutions 2026-06-02 and 2026-06-03 Establishing a New Assessment Rate and Authorizing Collection on the County Tax Roll. Joe Danna seconded the motion. Motion Carried **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**

14. Board to Consider Adopting the Updated 2026 RD784 Emergency Operations Plan –

Background:

The District’s current Emergency Operations Plan (EOP) was adopted in September 2017. In 2021, KSN Inc., on behalf of the County, initiated an update process. The plan update was completed by Yuba County Office of Emergency Services in coordination with RD784 staff, the District engineer, and legal counsel.

The updated EOP outlines how District staff will prepare for, respond to, and recover from flood emergencies while coordinating with state and local agencies, including California Governor’s Office of Emergency Services and the Yuba County Operational Area. The plan focuses on the District’s responsibilities for maintaining levee and drainage systems and details procedures for flood preparedness, levee patrol, flood fighting, and recovery. The plan follows FEMA emergency planning guidance and will be reviewed by the Board at least every five years or after major flood events. Due to the large size of the plan, an electronic copy will be distributed to the Board ahead of the meeting. A hard copy will be available for review at the meeting upon request.
(Presentation by Staff)

Recommended Action:

Approval of the updated 2026 RD784 Emergency Operations Plan.

Brent Hastey moved to approve the updated 2026 RD784 Emergency Operations Plan. Joe Danna seconded the motion. Motion Carried. **Vote: 4 Ayes (Atwal, Danna, J. Hastey, and B. Hastey), 0 Nays, 1 Absent (Read), and 0 Abstain.**
